

1st Semester Final Test Schedule Fall 2016

Finals will be given during the last week of each semester. Students will receive a progress report on the noted below letting them know if they are required to take finals due to grades lower than A's or B's as of that date (these grades may NOT BE THE FINAL GRADE in the course, but grades to that date).

1. Every student in grades 7-12 will take a mid-term/final in every class.
2. Tests will be given in 1 hour and 45 minute blocks.
3. All students will attend the scheduled testing sessions unless they qualify for an "exemption."
4. To earn an "exemption" a student must meet ALL of the following criteria:
 - *Students with A's or B's who have not missed more than 3 days of school.*
 - *The student has not had any more than 2 tardies in the class.*
 - *The student has no unexcused absences in the class.*
 - *The student has not served any full or partial days of in school or out of school suspension.*
5. Students who qualify for an "exemption" will be excused from attending the testing sessions. They may:
 - Go home (students must check out in the office before leaving the building)
 - Go to a designated study/gathering area (to be determined)

They will not, however, be allowed to roam the halls. Hall roamers will be assigned to their regularly scheduled class.

6. If a student chooses to take finals, it will not count negatively toward the student's grade...it can only help. Students with C's, D's, or F's must take finals regardless of the number of days missed or attended.
7. Cutoff for grades counting toward finals will be December 8th at the end of Advisory.
Cutoff for attendance will be December 12th.
